Summary

Full-stack developer with experience in .NET (Core & Framework), REST API design, and SQL-based data systems. Passionate about building high-impact solutions through clean backend architecture and responsive frontend interfaces. Proven ability to collaborate in agile teams, conduct code reviews, and deliver production-ready features across the stack.

Education

OCT 2021 - PRESENT

BSc in Computer Science | University for Business and Technology | Prishtinë, Kosovë

9.2/10 GPA • Active contributor to software engineering student projects

Experience

FEBRUARY 2025 – MAY 2025

Intern – Shopware Developer | Solution 25 | Prishtinë, Kosovë

- Contributed to plugin architecture and theme customization using Symfony, Twig, and PHP.
- Collaborated in agile sprints, participated in code reviews, and improved system integration pipelines.
- Built production-ready features for client-facing e-commerce solutions.
  Relevant Tech: Git, REST APIs, VS Code, agile sprints.

JUNE 2022 – PRESENT
Freelance Full-Stack Developer | Remote

- Developed multiple web services using .NET Core, REST APIs, and SQL Server for clients in education and management.
- Integrated NextJS and React.js frontends with secure backend services.
- Performed testing, troubleshooting, and documentation for new releases.
  Relevant Tech: .NET Core, EF Core, Swagger, Git, Visual Studio, Azure DevOps.

Skills

- **Languages & Frameworks:** .NET 6/8, .NET Framework 4.8, EF Core, C#, JavaScript
- Frontend: React.js (Next.js), HTML/CSS — familiar with component-driven architecture; quick to adapt to frameworks like Angular.
- **Backend:** REST APIs, Swagger, gRPC (basic), Kafka (basic), PHP
- **Tools:** Visual Studio 2022, Visual Studio Code, Git, Azure DevOps
- **Other:** Docker, Kubernetes (basic), YAML, Unit Testing, Agile
